If there is any discrepancy between the information in this brochure and the policy, the policy prevails. Premium will vary with the level of benefits chosen. For complete information, please refer to the policy.

Benefits are based on allowable charges. Allowable charge is defined as the lesser of the billed charge or the amount established or negotiated by Blue Cross and Blue Shield of Louisiana and HMO Louisiana, Inc. as the maximum amount allowed for all provider services covered under the terms of the policy.

Notice: Healthcare services may be provided to you at a network healthcare facility by facility-based physicians who are not in your health plan. You may be responsible for payment of all or part of any fees for those out-of-network services, in addition to applicable amounts due for copayments, coinsurance, deductibles and non-covered services.

Specific information about in-network and out-of-network facility-based physicians can be found at [www.bcbsla.com/hbp](http://www.bcbsla.com/hbp) or by calling the customer service phone number on your ID card.
Healthcare Reform:
What Does It Mean to Small Groups?

Healthcare changed when the Affordable Care Act (ACA) – also known as healthcare reform – went into effect in 2010. Here’s what you need to know:

1. **The definition of a Small Group Employer is 1-50 employees.**

   In 2015, a bill was passed in Congress which gave states the authority to choose the definition of a “small employer.” In Louisiana, the definition of a “small employer” is 1-50 employees, based on your group’s Medical Loss Ratio (MLR) count.

2. **The Employer Mandate may apply to you.**

   Employers employing at least a certain number of people (generally 50 full-time employees or a combination of full-time and part-time employees that equate to 50 full-time equivalent employees) will be subject to the Employer Shared Responsibility Requirement – also known as the “Employer Mandate” or “pay or play” provisions. Under these provisions, applicable large employers (ALEs) must either offer minimum essential coverage that is “affordable” and that provides “minimum value” to their full-time employees and their dependents, or potentially face fines.

3. **The Small Business Health Options Program (SHOP) is available.**

   The SHOP Marketplace is open to employers with 50 or fewer full-time equivalent employees (FTEs). If you have fewer than 25 employees, you may qualify for tax credits if you buy insurance through SHOP.

4. **The Medical Loss Ratio for small groups is 80%.**

   Medical Loss Ratio is the percent of premiums an insurance company spends on claims and expenses that improve health care quality. As a small group, you can rest assured that 80% of your premium contributions are going directly to your group’s medical care.

Why Choose Blue?

We are committed to offering value with our health insurance plans. Your covered employees can take advantage of innovative health programs focused on keeping them well. Plus, they will have access to value-added wellness programs and exclusive discounts on wellness services such as gym memberships, spas and more.

Quality Blue Primary Care

We work with primary care doctors around the state to help your employees get the best care possible. Through our Quality Blue Primary Care (QBPC) program, we share data and information with doctors enrolled in our program that help them deliver focused care. This program is already getting great results for patients, particularly those with chronic conditions.

What is better with Quality Blue Primary Care?

• **Health coaching**
  If your employees have a condition such as high blood pressure, diabetes, heart disease or chronic kidney disease, they can receive helpful calls and extra attention from our Blue Cross nurses between doctor’s appointments to help them stay healthy.

• **Lower or free copays!**
  If you or your employee’s doctor is in the Quality Blue Primary Care program and the selected health plan has a copayment for primary care doctor visits, the copayment could be reduced or waived for office visits with doctors/nurse practitioners.

QBPC is part of any Blue Cross member’s benefits. Check out [www.bcbsla.com/myQBPC](http://www.bcbsla.com/myQBPC) to learn more about how this program helps your employees.

Which doctors participate in Quality Blue Primary Care?

QBPC participants currently include major health systems such as Baton Rouge General Physicians Group, The Baton Rouge Clinic, Ochsner Health System, Gulf South Quality Network, Shreveport Family Doctors and others. Look up doctors’ names in our directory at [www.bcbsla.com/findcare](http://www.bcbsla.com/findcare). QBPC doctors have a blue Q next to their names.
Care Management

We offer care management programs to help members with chronic conditions or serious injuries such as diabetes, heart disease and chronic lung conditions like asthma. If you or your employees have any of these conditions, these programs help you move through the medical system and get the best possible care in a timely manner.

BlueCare: Greater Access Through Telemedicine

BlueCare makes it easy and convenient to get care with virtual, online doctor visits through a partnership with American Well*. Your employees can “meet” with a doctor anytime and anywhere, without having to drive to a clinic.

• BlueCare appointments take place using a home or office computer, smartphone, tablet or other internet-accessible device.

• A doctor or clinician can review medical information, speak with and see patients and even prescribe certain medications if needed.

How Your Plan Works

Your Employee’s Cost Share

These commonly used terms may be helpful to share with your employees to assist them with understanding their health plan.

- **Copayments**
  If the plan has a copayment, this means there is a set dollar amount, or flat fee, for some kinds of care, such as at your doctor’s office or pharmacy. The copayment will be a lower amount for a primary care doctor and higher for specialists.

- **Deductibles**
  If a plan is chosen with a deductible, this amount must be paid up front before insurance pays for care. If the plan also has copayments for certain services, these copays will not count towards the deductible. The plan will also have a separate out-of-network deductible.

- **Coinsurance**
  Once the deductible has been met, there is a set percentage, or coinsurance, for your care. The lowest coinsurance amount will be paid when your employees stay in-network for care.

- **Maximum Out-of-Pocket**
  What is paid toward medical and pharmacy deductibles, copayments and coinsurance applies to the maximum out-of-pocket. Once the maximum out-of-pocket has been paid, insurance will pay 100% of the cost of covered care for the remainder of the calendar year. A separate out-of-pocket-max will apply for services received out of the network.

Your Plan’s Network Coverage

Blue Cross and Blue Shield of Louisiana has one of the largest doctor and hospital networks in the region. This means your employees have access to the care needed at a lower price. In order to get the most out of their health plan and keep costs as low as possible, it’s important that your employees get care from a provider in the network.

It’s easy to look up doctors and hospitals in the network. Just go to www.bcbsla.com/findcare and choose your plan’s network directory.
Your Prescription Drug Coverage

Prescription drug benefits are included in all plans. Your plan may have a separate drug deductible. Drug benefits are managed by Express Scripts.* To get the most out of your drug benefits, you should take a drug that is covered under your plan.

Covered Drugs List

Your plan has a covered drug list, or formulary, that includes thousands of generic and brand drugs, but not every drug is covered. How much you pay for the drugs on the list depends on the plan you choose and the drug you buy. If you fill a drug that is not on the covered drug list, you could have to pay the full cost of the drug.

Two things a covered drug list can tell you:
1. If there are other drugs you can take for your health problem that will cost you less.
2. About any rules that you must follow before a drug is covered.

Pay close attention to what your plan has. Is it a 2-Tier pharmacy plan or a 3-Tier pharmacy plan?

This means your plan has either two tiers of cost for drugs or three tiers of cost for drugs. Drugs in the lower tiers cost less than drugs in the higher tiers. To save money, start with a drug in tier 1. If that one doesn’t work, you can move up to a higher cost tier.

Small Business Funding Solutions

Simplified • Aggregate Protection • Self-funded

Blue Cross’ Small Business Funding Solutions is an exclusive aggregate-only, stop-loss product. We simplify the self-funding process by covering all eligible claims under a single aggregate attachment point. When you choose Small Business Funding Solutions you don’t need separate, specific stop-loss coverage.

Features
• No separate specific stop-loss
• Fully funded monthly
• Client retains aggregate surplus
• Monthly accommodation
• Terminal liability
• Unlimited maximums available
• Standard plan designs

Self-funded vs. Fully Insured

Under traditional fully insured arrangements, groups generally pay a fixed premium cost per class of coverage each month and nothing more. Likewise, self-funded groups generally pay a fixed cost per class of coverage each month, but must also fund monthly claims payments along with funds for unexpected claims fluctuations. Small Business Funding Solutions offers groups the simplicity of the monthly fixed premium payments fully insured groups enjoy, while allowing the advantages of being a self-funded group, such as:
• Retention of year-end claims account balance
• Lower administrative cost structure
• Full access to plan’s claims experience
• Federal ERISA preemption of state mandates

Contact your broker or regional office representative if you’re interested in Small Business Funding Solutions.
